Most Reverend Arthur J. Serratelli
Bishop of Paterson
777 Valley Rd.
Clifton, NJ 07013

20 October 2011

Dear Bishop Serratelli,

You may remember that we had communicated about articles 48 and 87 of the GIRM. My last letter to you regarding this issue of July 2009 remained unanswered, and I almost gave up hope that the language would be corrected.

I just received my copy of the new Missal, and I noticed to my surprise that these articles had indeed been corrected. I thank you profusely for doing this, for the correction will allow the texts of the Gregorian chant antiphons to be considered proper on the same level as those of the Missal antiphons.

I know that you had many more pressing things on your mind than the correction of two articles that had already been approved, and I thank you for your attention in this matter.

Sincerely,

CC Most Rev. George H. Niederauer
CC Rev. Msgr. John Talesfore
